

SLIDE ROCK
STONE QUARRY- MINERAL CLAIM
FOR SALE

www.naturalstonesite.com

Slide Rock (Slide Mineral Claim # 232584)

**Proven quarry~ is a legacy mineral claim paid up to 2018
with a transferable operating quarry permit in place.**

Firm offer ~ Iris Lamb, Kootenay Stone Centre Salmo B.C.

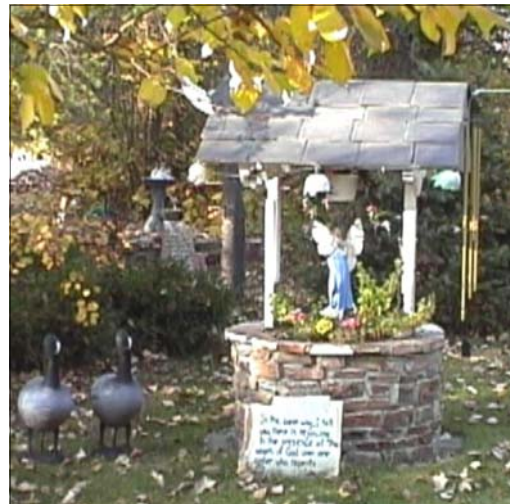

**\$350,000 for whichever quarry-mineral claim sells first and
\$500,000 for the next one.(other claims also for sale.)**

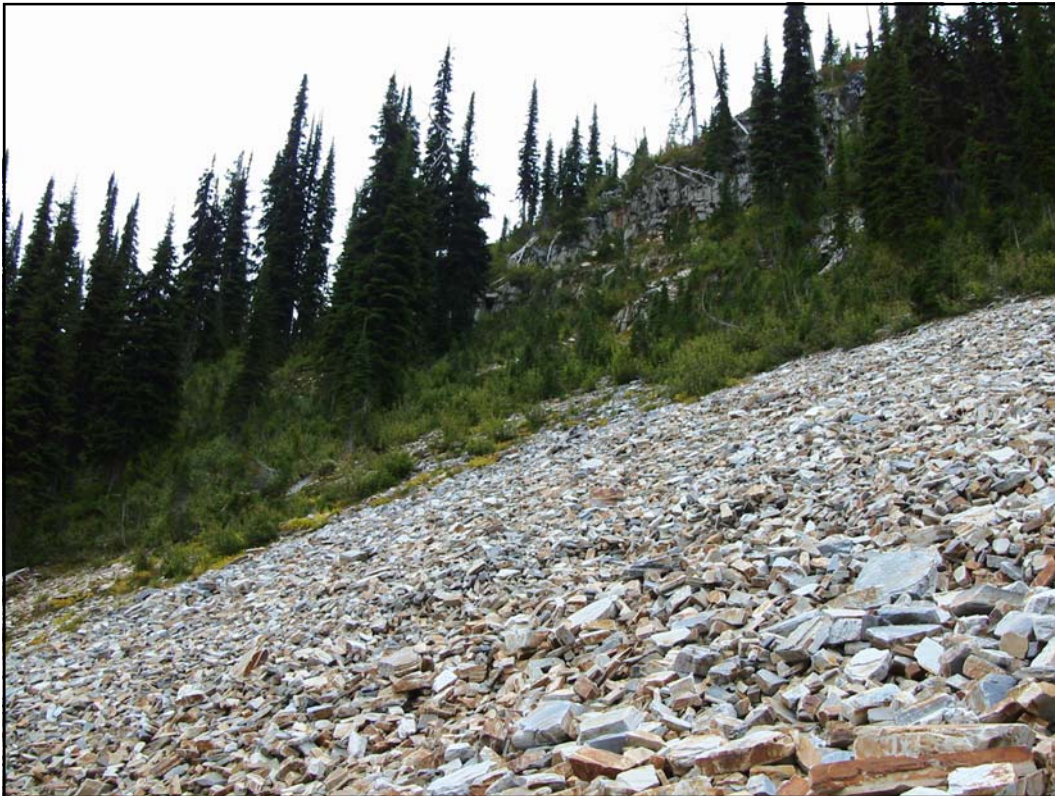

September 2008

This legacy Slide mineral claim is larger than the average claim which are usually about 1,500 ft sq. You can check the sizes of each quarry (claim) on the government web site **Mineral Titles Online**. This claim and the Regal Quartzite claim is on crown land.

Also unique is the fact that there is mega tons of stone laying there waiting to be hauled away.....plus unlimited tons of stone to be blasted later on. Much of the stone that is laying there is splittable as you can see by the pictures. There would be no waste as the small stuff can be used for dry pac stonework or landscape rubble like the Steller Place landscape project. (See project on last page.)

Kootenay Stone Centre ~ Box 486 Salmo B.C. VOG 1Z0
